LASER FOCUSED

ON QUALITY, CUSTOMERS & COMMUNITY

The power and precision of Sunset Manufacturing's laser cutter is impressive, but it's our expert team that really brings the wow. We can engineer even the most intricate cuts of one-half the thickness of a human hair (± 0.005), in up to 1/2" aluminum and 3/4" stainless and mild steel. We make it happen with consistent repeatability, to your exact specs, all seamlessly staged with turnkey fabrication, machining and finishing to complete your custom requirements.
